It is noteworthy, too, that the most important legislation of the session forms a part of the much-exploited "Roosevelt policies." This legislation was repeatedly urged by President Roosevelt, but congress turned a deaf ear. Yet the lawmakers allowed themselves to fall prey to the persuasive smile and touching entreaty of Presi-dent Taft, and passed for him the very bills that had been denied his prede cessor. All of which demonstrates the wisdom of a remark made by President Roosevelt when he declined to accept another nomination. He then said that some other man, in sympathy with his views, could accomplish more with congress than he himself.

Of all the legislation enacted in compliance with the recommendation of the president, the interstate commerce creating a court of commerce and enlarging the powers of the interstate commerce commission, takes first rank. It was the foremost feature of the Taft programme, and the one en which he spent most time and effort; collaborating as he did with his attorneygeneral, and with the leading lawyers of congress to get most effective law possible to devise. Many of the changes made by this law were advocateed by President Roosevelt, but congress put aside his recommendations and waited for his successor to renev

Nicaraguan Government Asks That Filibustering be Stopped.

Washington, D. C .- It was reported here that a large armed vessel carrying munitions of war for the Madriz government in Nicaragua sailed from New Orleans and that the Estrada insurgent representatives have appealed to the United States to send a warship after her.

It is being asserted here that the steamer Columbia, which cleared yes-terday from New Orleans for Bluefields, carried a large quantity of mu-nitions of war for the Madriz army and also three large high-speed gasoline launches equipped with machine guns.

The launches, these men say, were marked "J. I.," and were to be unloaded at Pearl lagoon, on the east coast, near Bluefields. They say the mark "J. I" consigns the launches to Julian Irias, whom Madriz has appointed a plenary commissioner over the east half of Nicaragu.

Dusseldorf, Germany-The Zeppelin airship made a four hours' excursion over the industrial cities of this district. The return and landing were made without incident. The machine took a second but shorter excursion in

At one time, running with the wind, the great dirigible attained a speed of 56 by miles an hour. The trip was from this city, to Essen, Dortmund, Bochum and

return. The airship passed over the chimneys of the great Krupp works at On the return the Deutschland en countered a rain storm and had to fight her way against a head wind. On landing the women passengers said they had not experienced a moment of
